

Strategic Security Assessment

Information Security Made Easy

How is your company going to keep up with the constantly changing threat landscape? How do you know where to start with security or where you currently stand?

A comprehensive strategic security assessment is the answer.

Sword & Shield Enterprise Security's Strategic Security Assessment (SSA) service is a comprehensive analysis of every aspect of your business as it relates to security. From hiring practices to physical and network security, Sword & Shield partners with you to thoroughly assess the maturity of your security posture.

This analysis provides the critical insight and information you need in order to develop the most effective strategy possible for your organization.

Experience Matters

A thorough and accurate assessment requires an in-depth understanding of all aspects of security and how it will affect your business, as well as knowledge of proven methodologies and best practices. With more than 20 years' experience and conducting hundreds of security assessments a year, Sword & Shield's professionals have worked with companies across all industries, environments, and budgets.

Our team of experts applies its depth and breadth of knowledge to analyze every aspect of your organization's people, processes, and technology as it relates to protecting your information. Then, we work with you to make sure you understand not only what you need to do, but also why you need to do it.

What's Included

The SSA includes a high-level review of your organization's current security posture including, but not limited to, the following areas:

- Access Control
- User Account Control Management System
- Network Security
- Information Security Governance and Risk Management
- Cryptography
- Security Architecture and Design
- Operations Security
- Business Continuity and Disaster Recovery Planning
- Vendor Management
- Physical (Environmental) Security

About Us

Securing business for more than 20 years, Sword & Shield Enterprise Security, Inc. partners with our customers to meet the needs of their dynamic cybersecurity and compliance landscape.

We work closely with companies to become tightly integrated with their enterprise operations in the areas of managed security, risk and compliance, enterprise security consulting, security incident response and forensics, and security training.

Recognized nationally and headquartered in Knoxville, Tennessee, Sword & Shield has offices throughout the US. Sword & Shield services a broad spectrum of industries, including healthcare, retail, media, banking and finance, legal and manufacturing.

Just Ask

Sword & Shield has vast experience in virtually every area of information security and compliance. If you need a service in these areas not specifically named in a description, the chances are we do it, and we do it well. So, just ask.

Deliverables

We deliver a comprehensive Strategic Security Assessment Report and a Remediation Roadmap. These documents include our findings and remediation recommendations including your strengths and weaknesses, and what you need to do, in order of priority, to improve your regimen. This provides you with the building blocks you need to construct a cybersecurity program relative to your regulatory compliance needs and risk tolerance.

Additional Services

As a full-service security and compliance firm, Sword & Shield offers a host of related solutions. In addition to the SSA, clients may opt for other services including:

- Virtual Chief Security Officer (vCSO)
- Virtual Security Compliance Consultant (vSCC)
- Policy and Procedure Development
- Security Awareness Training
- Data Classification Services
- Incident Response Planning
- Penetration Testing
- Sensitive Data Scanning
- DR/BCP Planning

Information security doesn't have to be hard. We make it easy for you.

Why Sword & Shield Enterprise Security

Technology firms that dabble in security tell you what you're doing wrong (or not doing at all) and walk away, leaving you without a plan of action. Sword & Shield partners with you to become an integral part of your cybersecurity and compliance program by not only identifying gaps and vulnerabilities, but also continuing to work with you to achieve and maintain a secure and compliant environment.

In short, Sword & Shield's depth and breadth of expertise in every aspect of our comprehensive portfolio of security services, coupled with our customer-first approach, empowers us to provide tailored solutions and personalized support for small to enterprise level companies. We strive to make your security and compliance initiatives as easy as possible on you.

This is what sets us apart from other information security and compliance firms.
