Virtual Chief Information Security Officer

C-Suite Level Information Security Management

*Sword & Shield specializes in information security and compliance. Our certified consultants are experienced professionals, and our comprehensive portfolio of security services allows us to be your single stop consulting partner.*

In today’s constantly changing threat landscape, companies need information security and compliance leadership based on vast experience. This empowers organizations to develop a security vision, strategically plan for the future, budget and uphold the integrity of the program.

However, hiring a full-time C-level professional can be cost-prohibitive.

*Sword & Shield Enterprise Security’s Virtual Chief Information Security Officer (vCISO) service provides companies of all sizes and industries with executive-level guidance and leadership, but without the costs associated with hiring a full-time “C-suite” employee.*

The vCISO *partners with you* as a trusted member of your leadership team to develop and maintain a company security vision and strategy by doing the following:

- Conveying industry trends and leading the team in architecting solutions.
- Developing long-term security and compliance plans.
- Budgeting and forecasting.
- Assessing risk appetite and applying this to program development.
- Determining the proper security framework(s) with which the company must comply.
- Providing guidance and direction in achieving any compliance requirements the company may have.
- Act as an objective resource for boards of directors to rely on for advice and guidance independent of bias.

About Us

Securing business for more than 20 years, Sword & Shield Enterprise Security, Inc. partners with our customers to meet the needs of their dynamic cybersecurity and compliance landscape.

We work closely with companies to become tightly integrated with their enterprise operations in the areas of managed security, risk and compliance, enterprise security consulting, security incident response and forensics, and security training.

Recognized nationally and headquartered in Knoxville, Tennessee, Sword & Shield has offices throughout the US. Sword & Shield services a broad spectrum of industries, including healthcare, retail, media, banking and finance, legal and manufacturing.

Just Ask

Sword & Shield has vast experience in virtually every area of information security and compliance. If you need a service in these areas not specifically named in a description, the chances are we do it, and we do it well. So, just ask.
Subscription-Based Tiered Pricing

The vCISO provides a depth of knowledge and breadth of experience to give you peace of mind in knowing you are leaning on the expertise of the best, at a fraction of the cost of a full-time employee. In addition, Sword & Shield offers subscription-based tiered pricing* to ensure we can assist organizations of all shapes and sizes. This makes the cost of a chief information security officer predictable and easier to budget.

Why Sword & Shield Enterprise Security

Technology firms that dabble in security tell you what you’re doing wrong (or not doing at all) and walk away, leaving you without a plan of action. Sword & Shield partners with you to become an integral part of your cybersecurity and compliance program by not only identifying gaps and vulnerabilities, but also continuing to work with you to achieve and maintain a secure and compliant environment.

In short, Sword & Shield’s depth and breadth of expertise in every aspect of our comprehensive portfolio of security services, coupled with our customer-first approach, empowers us to provide tailored solutions and personalized support for small to enterprise level companies. We strive to make your security and compliance initiatives as easy as possible on you.

This is what sets us apart from other information security and compliance firms.
