GDPR Compliance Made Easier

If you do business internationally, chances are your privacy processes and procedures must hold up to the new General Data Protection Regulation (GDPR) regulations and requirements **going into effect on May 25, 2018**.

This impending European Union (EU) regulation, intended to give people more control over their personal data and protect that information from risk, applies to any organization that conducts business in the EU.

You need an information security and compliance partner you can trust to help you navigate the GDPR.

Sword & Shield's GDPR Assessment

Sword & Shield leverages our experience in data and information security compliance under various frameworks (GDPR, NIST, HIPAA, ISO, ITIL, etc.) to identify the gaps between GDPR requirements and your current security posture.

With GDPR going into effect in just a few months, it's time to get started with understanding your status and remediating your gaps. Organizations at varying stages of readiness can rely on Sword & Shield to provide clarity around GDPR compliance.

We Get to Know You

Sword & Shield employs its 20 years of information security and compliance expertise to *partner with you* to determine your status and assist you with fulfilling GDPR requirements. We get to know you through the following:

Inspection

Sword & Shield reviews your documentation such as policies, procedures, and records to determine if GDPR requirements are being met.

Inquiry

We interview your team members to determine if controls are in place and operating effectively, and to evaluate knowledge of controls.

Evidence Gathering

We collect and review documented policies and procedures as well as interview findings to assess accuracy and compliance with the GDPR.

What our GDPR Assessment Includes

We are uniquely qualified to perform your GDPR assessment based on our ability to get to know your organization, systems, processes and documentation, and apply this information to GDPR using our compliance expertise. Sword & Shield's GDPR Assessment services include the following:

- Gap Analysis against relevant GDPR Articles
- Personally Identifiable Information Identification
- Incident Management Process Review
- Vendor Management Practices Review
- Information Classification
- Data Retention Review
- Policy and Procedure Review

Let Sword & Shield help you to determine your data privacy and security needs, and implement safeguards to meet them.

Deliverables

Sword & Shield identifies gaps between your current policies, procedures, systems, and applications relative to the GDPR. The results of the analysis are used to create recommendations to assist with the remediation efforts required to reduce gaps and achieve compliance with the GDPR.

Following delivery of the final report, Sword & Shield provides you with your *customized roadmap* to GDPR Compliance. The roadmap takes into consideration the controls that need to be addressed to lower risks and address compliance deficiencies.

Why Sword & Shield Enterprise Security

Technology firms that dabble in security tell you what you're doing wrong (or not doing at all) and walk away, leaving you without a plan of action. Sword & Shield partners with you to become an integral part of your cybersecurity and compliance program by not only identifying gaps and vulnerabilities, but also continuing to work with you to achieve and maintain a secure and compliant environment.

In short, Sword & Shield's depth and breadth of expertise in every aspect of our comprehensive portfolio of security services, coupled with our customer-first approach, empowers us to provide tailored solutions and personalized support for small to enterprise level companies. We strive to make your security and compliance initiatives as easy as possible on you.

This is what sets us apart from other information security and compliance firms.
